Sales Tracking

Do You Want to Sell on the Phone or Email?

If you do business on the Internet you need a secure, cost-effective, and reliable way to collect payments and process transactions. We can get you set up easily and quickly with a robust solution for taking payments over the Internet.

FREE, Easy-to-Use Solutions

Processing where you need it: When we setup your account, you will be connected to our processing system to accept credit card payments securely, automatically, and in real time.

FREE Virtual Terminal: Our software also lets you manually key-in transactions through our Web site. Now you can accept credit cards anywhere there's an Internet connection, such as craft fairs and trade shows.

We provide a secure way to automatically authorize, process, and manage credit card transactions on your Web site.

Fraud Protection: Identify, manage and prevent suspicious or potentially costly fraudulent transactions with this customizable, rules-based solution for Web merchants.

After a sale is processed, you'll even receive an e-mail with sale and customer information so you can fulfill the order. Plus, the Virtual Terminal feature gives you the ability to manually key-in transactions anywhere there's an Internet connection.

Retail

Credit Card Surcharging

Ideal for: **Retailers**

Ideal for: **Restaurants**

Ideal for: **Service-based Business**

On the Road? We have mobile payment solutions for your, perfect for door-to-door sales and tradeshows

Solutions for Face-to-Face Sales

If the majority of your business is done face-to-face with your customer such as a retail store-front, professional office, or other point-of-sale location a terminal is the best way to process your credit and debit card sales. Simply swipe your customer's card through the terminal, and the terminal does the rest of the work: dialing the processor, authorizing the charge amount, and processing the sale.

Easy to Use, Low Cost Terminals

We offer credit card terminals from leading manufacturers for the lowest rates. If you already have a terminal, we will reprogram it for FREE!

We support Tetra Move5000, Tetra Desk3500 and Tetra Desk5000 which are compact terminals that combine ease of use and high performance into an affordable package. Starting as low at \$170. Equipment leasing available upon request.

Do You Want to Sell on the Internet?

If you do business on the Internet you need a secure, cost-effective, and reliable way to collect payments and process transactions. We can get you set up easily and quickly with a robust solution for taking payments over the Internet.

FREE, Easy-to-Use Solutions

Our FREE Internet card-processing software integrates with your Web site, integrating with all major shopping carts and platforms. Plus, you get the flexibility to process transactions directly from your website or manually keying them into our Virtual Terminal:

Web Site Processing: When we setup your account, your Web site will be connected to our processing system to accept credit card payments securely, automatically, and in real time.

FREE Virtual Terminal: Our software also lets you manually key-in transactions through our Web site. Now you can accept credit cards anywhere there's an Internet connection, such as craft fairs and trade shows.

Zero-cost credit card processing is now possible.

Supported Regions

All United States regions **except for:**

- Colorado
- Connecticut
- Kansas
- Maine
- Massachusetts
- Oklahoma
- Puerto Rico

Supported Terminals

- Tetra Desk3500
- Tetra Desk5000
- Tetra Move5000

Processing Details

- Works on all major credit card brands
- Debit card transactions are always 1%+\$0.25
- Fee only charged if a cardholder uses a credit card. Does not apply to debit cards or government-issued prepaid cards.
- If a return is issued on a transaction, a proportional amount of the fee will be returned as well.

**We make it possible.
You make it happen.**
